## Introduction

Hi, it's Matt Bisogno here from geegeez.co.uk and thank you so much for taking the time to download and read this collection of horse profiles for the flat 2023.

Like all forms of race reading, horse profiling is an inexact science; but, used sensibly, it shines a bright light on horses returning to favoured conditions... or racing today in a setup that probably won't suit.

What follows in this short report are 20 or so horses with their optimal profiles. It's up to you, the reader, how - or indeed if - you use this information. History is the best guide we have to the future, but none of us are clairvoyant!

As well as the profiled horses, I've included a list of the remaining horses (that weren't discarded as part of my research phase) which have accrued five or more flat turf wins from the beginning of 2020 to the end of 2022. Why? Because if you're curious you might wish to research some, or all, of them for yourself.

[This video illustrates how I analysed the horses and arrived at my profiles.](#)

Good luck!

Matt
